

What is SFM?

According to the Helsinki resolution, SFM is: “the stewardship and use of forests and forest lands in a way, and at a rate, that maintains their biodiversity, productivity, regeneration capacity, vitality and their potential to fulfill, now and in the future, relevant ecological, economic and social functions, at local, national, and global levels, and that does not cause damage to other ecosystems”

 FOREST EUROPE - TOGETHER for FORESTS AND PEOPLE through Sustainable F...

After watching the video, complete the following statements:

The benefits of SFM are:
